

Condoclean N 70 U

Description

Water-miscible, phosphate-free, neutral cleaner for the intermediate and final cleaning.

Area of use

Alloyed and unalloyed steels, cast iron, aluminum and non-ferrous metals can be cleaned. Ideally suited for removing cutting and quenching oils adhering to workpieces, as well as chips and very fine dirt. The use concentration depends on the type of cleaning process and how dirty the workpieces are. The concentration can be determined with a hand refractometer - for this purpose the reading (° Brix) is multiplied by the refractometer factor. Recommended cleaning methods: - high pressure (up to 400 bar) - immersion - ultrasound.

Benefits

- excellent cleaning effect
- good material compatibility
- wide temperature range
- excellent foam behavior even in soft water
- free from formaldehyde, phosphates, silicates and borates
- good corrosion protection properties

Typical parameters

Property	Test specification	Dimension	Typical values
appearance and condition	visually	-	gelb und klar
density (20 °C)	DIN 51757	kg/m ³	1056
pH-value (3 %)	-	-	9,3
Refractometer factor	-	-	2,5
Use concentration	-	%	2 - 10
Operating temperature	-	°C	40 - 70
